

hearbuds™

Easy to Use
Amazing Sound
Acoustical Isolation
Ultimate Comfort

Product Features at a Glance:

Hearbuds increase performance of in-ear headsets turning them into custom earbuds for iPod, MP3 Players, and personal HI-FI.

- Better sound quality at lower volumes
- **Great for iPod**, MP3 players, cell-phones, and other personal audio
- Fit most in-ear headsets
- Works great in noisy environments because they block unwanted sounds
- Comfortable, safe, and secure
- Designed by audiologists
- Washable
- Includes three hearbud sizes

Hearbuds are a unique product, created as a direct result of the latest audiologists' research.

We are committed to protecting your hearing and improving your listening pleasure and comfort. By creating acoustic chambers at the ear, hearbuds not only dramatically improve the sound of standard in-ear headphones and ear-pieces, their 100% molded silicon design also significantly reduce unwanted background noise levels – enabling you to enjoy the same sound clarity at a lower volume. And, because they're audiologically designed, they're comfortable to wear and won't fall out of your ears!

Better sound. Better design. And better for you too.

How to use hearbuds.

1. First, familiarize yourself with the differences between the hearbuds shapes: Left (L), Right (R), Back, and Front (indicated by a raised spot next to the R or L symbol).

2. Before fitting to your in-ear earpieces, experiment with each of the three sizes: 1, 2 or 3. Try them in each ear to find the best fit – it may be that your left and right ear need different sizes. Remember: the raised spot always faces forwards.

3. The hearbuds should feel snug and secure without feeling too tight. Make sure you have them inserted correctly for comfort and performance.

4. Now take them out and push the open ends of your two chosen Left and Right hearbuds over the corresponding earpiece. (To remove, gently peel hearbuds from earpiece.)

5. Turn down the volume on your music source, put the earpieces in your ears and adjust the volume to the correct level. You'll notice the difference immediately.

Packaging Specifications

clamshell dimensions	5.125"W x 9.00"H x 1.82"D
inner carton count	4 pieces
case count	16 inner cartons / 64 pieces

Pricing

Cost	\$5.00 each
