

## **Hear Technologies Introduces the Switch Back SoundGrid-Bridge-Dante**

*The gateway to award-winning Waves processing on a Dante network*

**Dec 13, 2017**

Huntsville, AL – Building on the solid track record for manufacturing great PRO audio equipment, Hear Technologies has partnered up with Waves Audio to develop the Switch Back SoundGrid-Bridge-Dante. To fill an ever-growing need to give Dante users access to Waves' powerful processing capabilities, the Switch Back SoundGrid-Bridge-Dante is the best, most cost-saving solution on the market.

Switch Back Sound Bridge simultaneously transmits up to 64 channels of audio from Waves SoundGrid to Dante and 64 channels from Dante to Waves SoundGrid. By providing 64 channels of bidirectional audio between the two protocols with sampling rates from 44.1kHz up to 96kHz, we're providing yet another innovative tool to our innovative customers.

### **About Hear Technologies**
